

International Case-Study ENGINE

Declaration of consent for data protection - Lecturers

The research project ENGINE funded by the City of Vienna deals with the development and implementation of internationalization measures at the UAS Technikum Wien. In the course of this, we conduct an international teaching case study in which you as a lecturer of a partner university participate.

The protection of your personal data is of particular concern to us. We therefore process your data exclusively on the basis of the legal provisions (DSGVO, TKG 2003). In this declaration of consent, we (the team of the organizing university – in the following *UAS Technikum Wien*) inform you about the most important aspects of data processing in the context of the international case study in which you are participating. By confirming this declaration of consent, you agree that your data may be processed as follows.

I consent, on my behalf, to processing my personal data, in particular

- Contact details (Name, E-Mail Address, University)
- Date and time of evaluation time slots
- Evaluation data (Assessments and comments on students' solutions, feedback to improve the system and the case study)

for the following purposes:

- To send important information regarding the case study to my e-mail address
- Providing my possible evaluation time slots online to students (anonymized)
- For sending my contact details to students of other universities which I am responsible to evaluate

Furthermore, **I consent to my data being passed on to**

- participating student-teams to establish communication for carrying out the evaluation

I also agree to the use of the video chat software Jitsi Meet to evaluate teams. Jitsi Meet is an open source application that enables high quality, secure and scalable video conferencing. The Jitsi Meet client runs in your browser without you having to install anything else on your computer. You also do not need to register for this service. The privacy policy of Jitsi is available at <https://jitsi.org/meet-jit-si-privacy/>

I consent that my data will be stored until the end of the research project in the course of which the case study is carried out on 31.10.2020. Up to this point in time also all student data and submissions will be stored by UAS Technikum Wien. **I am aware that I am responsible for the storage and, if necessary, deletion of the data of the students** of all university on my side according to the respective national regulations.

I have been informed that I am entitled to revoke this consent at any time via engine@technikum-wien.at. This revocation does not affect the legality of the processing that has taken place up to that point. However, this will result in an exclusion from the case study for me and my students. If a student at my university revokes his/her consent to data processing, **I am responsible for claiming compensation** from the student, not UAS Technikum Wien.

I am aware that the **privacy policy is published at** <https://engine.ie.technikum-wien.at/casestudy/contact.php> and I can read it there at any time.

I hereby confirm that I have read and understood the data protection guidelines and the declaration of consent and that I agree with them.
