

International Case-Study ENGINE - Taiwan Collaborations

Declaration of Consent for Data Protection - Participants with Taiwan Teammates

The research project ENGINE funded by the City of Vienna deals with the development and implementation of internationalization measures at the UAS Technikum Wien. In part of the course of this, we conduct an international teaching case study in which you as a student of a partner university participate, National Formosa University in Taiwan.

The protection of your personal data is of particular concern to us. We therefore process your data exclusively on the basis of the legal provisions (DSGVO, TKG 2003 and [Personal Data Protection Act Taiwan](#)). In this declaration of consent, we (the team of the organizing university – in the following *UAS Technikum Wien* and collaborative university, National Formosa University, following NFU) inform you about the most important aspects of data processing in the context of the international case study in which you are participating with Taiwan teammates. With your confirmation you agree that your data may be processed as follows.

I consent, on my behalf, to processing my personal data, in particular:

- ◆ Contact details (Name, E-Mail Address, University)
- ◆ Photos and videos, provided by myself or my teammates, about all interactions on the communication software
- ◆ Information about all interaction on the website (anonymized)

for the following purposes:

- ◆ To send important information regarding the case study to my e-mail address
- ◆ For the transmission of my contact details to a Taiwan lecturer of NFU to record interactions of part of/all participants in my team
- ◆ To publish said interactions onto NFU websites

I have been informed that I am entitled to revoke this consent at any time via BOTH engine@technikum-wien.at AND engine@imobilities.com. This revocation does not affect the legality of the processing that has taken place up to that point. I have been informed that this will result in an exclusion from the case and the need to provide a substitute for grading to my lecturer.

I am aware that the **privacy policy is published at** <https://www.engine.ie.technikum-wien.at/casestudy/contact.php> and <https://imobilities.com/moodle/course/view.php?id=216> (with guest login) for Taiwan Collaborations, and I can read it there at any time.

I hereby confirm that I have read and understood the data protection guidelines and the declaration of consent and that I agree with them.
